*Pre-fab home contest winner.*

Dwell magazine's recent pre-fab home contest yielded a winning design by NYC architectural firm Resolution 4. The challenge was to build a 2000 sq. ft. home, taxes and land in, for under \$200K. The 2,042 pre-fabricated home was delivered to its Pittsboro, NC site in seven pieces by a local North Carolina manufacturer. The house has three bedrooms and 2.5 baths.
